

I listen to K-LOVE radio in Suffolk VA at 90.7 on the FM dail.
I am opposed to the expansion of broadcast service known as Low Power FM (LPFM) if that a new LPFM station would take precedence over an existing FM translator service. K-LOVE plays songs that I like to hear and provide me with encouragement and a positive spirit. In addition, they provide messages of local events in my area that are of interest to me. K-LOVE broadcasts a message of hope in times of discouragement.

Thank you for considering my comments.
